

CONNOR BROCK

DIRECTOR

Connor Brock is an award winning creative director specialized in bringing heavily art-directed worlds to life. His work on screen has been described as a 'visual delight to consume' due to the satisfying worlds in which viewers find themselves immersed. Connor's hands-on style is easily recognizable within his work. He often times personally designs, builds and fabricates all elements of set design and art for his projects. When not working on his latest project, Connor can be found in sunny Los Angeles, indulging in his love for surfing, cooking, and his new found interest in fragrance design.
